

Triton TRIBOR TEN

BORON WOOD PRESERVATIVE

A ready to use Dual Purpose formulation for use as a wood preservative against wood rotting fungi and insect attack. It contains 10% active ingredient and is applied to timber by brush or spray. It can be used for the treatment of small sectional timber and roof spaces. It is also effective against wood-boring insects.

- Dual purpose
- Solvent-free
- Ready for use
- Excellent penetration
- Low odour

Application Information

Preparation

The Control of Substances Hazardous to Health (COSHH) regulations apply to the use of this product at work. Ensure that the operator has read the relevant safety data sheet and is wearing the appropriate safety equipment. Always read the label.

The source of moisture triggering a dry rot outbreak should be identified and rectified as permanently as possible. Rapid drying of timber should be promoted and maintained. Thoroughly prepare all surfaces, which are to receive treatment. All timber surfaces should be cleaned of dust as far as practically possible. It is intended for application to unpainted, unvarnished timber.

Application

- By Brush 1 litre per 1 -2 square metres of timber. Three liberal coats should be considered to be the to a coarse spray treatment.
- By Spray 1 litre per 3 square metres of timber (at least two coats are recommended).
- Dip Dip wood for at least 3 minutes.
