

Triton TRITEC 60 Insecticide

Description

Triton TRITEC 60 Insecticide is for the treatment of wood boring insects. It is a super concentrate supplied in a small plastic container. The special micro-emulsion formulation leads to better penetration than obtained with the older more traditional water based emulsified preservatives. It will provide the necessary control and long term protection of wood against boring insect infestation for many years.

Benefits of Tritec 60

- Super concentrate (150gms makes 25 Litres)
- Good Penetration
- Provides the necessary control & long term protection of wood against wood boring insect infestation.
- 1 hour re-entry
- Fully solvent free technology
- No VOC's
- Significant reduction in plastic & paper waste
- Virtually no odour
- Non – flammable

Triton Systems formulations are all cleared under the Government's Pesticide Safety Precaution scheme & under the Control of Pesticide Regulations 1986, for use as directed & carries the **HSE Approval No. 10536**

Typical Applications for Tritec 60

- For the treatment of wood boring insects, both internal and external.

Bats: The active ingredient Permethrin has been accepted by the Nature Conservancy bodies as suitable for the treatment of roof voids where bats roost. However, it is a legal requirement to notify the appropriate Nature Conservancy body prior to any treatment of roof spaces where bats have been identified. Treatment must not be carried out whilst bats are at roost.

Preparation & Application

Dilute the Triton TRITEC 60 INSECTICIDE 150gm container with 24.85 litres of water. The diluted product can be applied by brush or spray at the rate of 1 litre of product per 3-4m² of timber surface to refusal. Alternatively, timber may be dipped for a maximum of 3 minutes. Timber to be treated should be reasonably dry before treatment. Any paint varnish or other surface coating should be removed. Any bark should be removed to increase penetration of the treatment.

Coverage

1 litre of diluted product per 3-4m²

Contents

Permethrin 33.40% w/w

Coco alkyltrimethylammonium chloride 0.07% w/w

Safety

To avoid risks to man & the environment, comply with the instructions for use.
